*The Marlboro Team in formation display.*

### THE MARLBORO AEROBATIC TEAM'S NEW FORMATION DUO AT INGLISTON, JULY 28th, 1985 — Proposed Time 2.30 p.m.

The Marlboro Aerobatic Team bring a spectacular "new look" to their 1985 Formation Display — the first-ever **single seater** Pitts Special Formation Duo to appear in the U.K. The Team will present their display at Ingliston Race Circuit on 28th July, 1985.

The team's professional ex-Air Force pilots are delighted with the much improved performance and flying characteristics of the new Pitts SI's. With a 20% increase in power-to-weight ratio, and exceptional all round rolling performance, they can now include many more of their most spectacular manoeuvres in their 12-minute, "all action" display.

The display demonstrates dramatically the versatility of these remarkable aircraft — their remarkable rate of climb allows the team to commence their display much lower and maintain higher speeds throughout the show. The Pitts SI is unrivalled for its flick-rolling ability — well demonstrated by one of this year's new manoeuvres, the "Multiple Opposition Flick Roll".

Most of the manoeuvres are entered at about 160 mph, and such speed and precision requires intense and perfect judgement. When not flying displays the pilots spend a great deal of time practising and perfecting their skills.

The Marlboro Aerobatic Team guarantee a professional and spectacular display. The show includes close-formation, opposition, synchronised flying and top level solo aerobatics, and their famous finale, the "MARLBORO BREAK", is guaranteed to draw gasps from the crowd!

#### AIRCRAFT SPECIFICATION

Engine	180 bhp Lycoming	Max Speed	203 miles per hour
Display Power/Weight Ratio	5.6 lbs/hp	Cruise Speed	140 miles per hour
Rate of Climb	3000 feet per minute	Max Weight	1150 lbs
Stall Speed	60 miles per hour	Range	300 miles

## RENAULT 5 elf Turbo UK Cup

Renault U.K. are delighted to bring Round 5 of the spectacular 1985 Renault 5 Elf Turbo U.K. Cup to Ingliston.

With prize money of over £100,000, this first all-turbo Saloon Car Championship in Britain is also Britain's richest saloon car championship.

Rob Hall leads the Renault 5 Elf Turbo U.K. Cup, having collected £1,550 in bonus and prize monies in the first four rounds. Hall, a 33-year-old Director from Stafford, has competed in saloon car racing since 1979 and has an 18-point lead over Steve Hine, a 28-year-old Company Director from London who raced in the old Renault 5 Challenge for three seasons.

*Championship Leader Rob Hall at Thruxton.*

Celebrity driver Jonathan Palmer won the first round at Thruxton in May but as the celebrity driver is not eligible for championship points; Rob Hall took the first place points. Steve Hine won the second round at Brands Hatch on the road but was then excluded when his car's turbo pressure exceeded the regulation limit at post-race scrutineering. So Rob Hall was declared the winner, but Hine made amends in the third round at Snetterton when he led from start to finish. Chris Taylor, who runs his own racing preparations firm at Silverstone, won the fourth round at Donington Park after a hectic Battle from Hine.

Ingliston expert Hugh Chalmers is to drive the Renault U.K. Ltd. entered guest car.

The Championship is officially backed by Renault U.K. Ltd., and has eight major sponsors: Autotrans, De Carbon, Elf, Facom, Michelin, Philips, Renault Loan, and Staw.

Eleven races form the 1985 Renault 5 Elf Turbo U.K. Cup, the final being at Vallelunga in Italy in October for which Autotrans provide drivers with free transport for their race cars.

The 125 m.p.h. Renault 5 GT Turbo Coupe is powered by a 1397 c.c. engine developing 115 bhp. Few modifications are permitted and only one type of Michelin tyre (slick or grooved) is allowed.

## TODAY'S MEETING

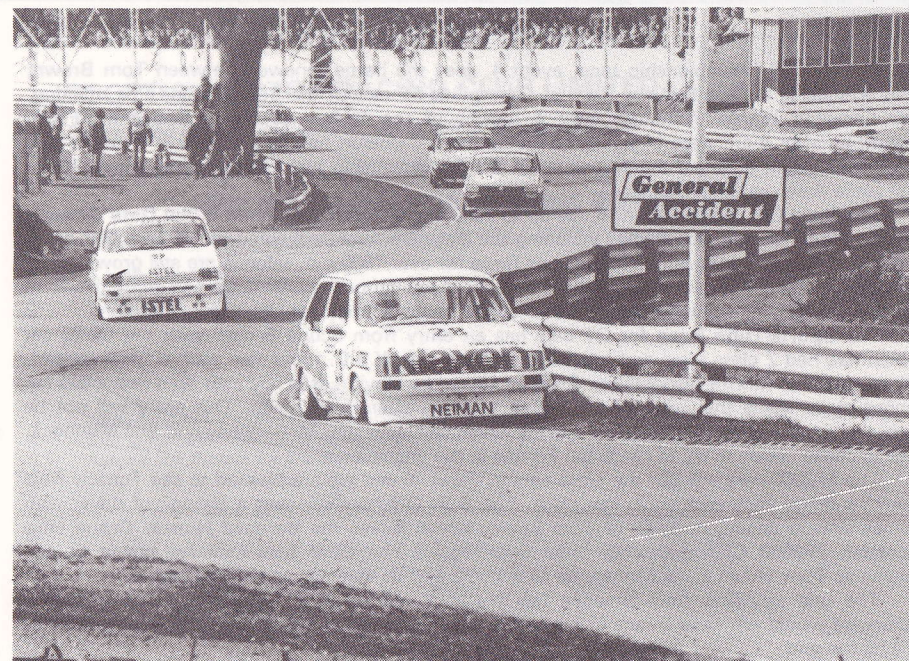

Today we welcome as race meeting sponsors **Renault U.K.** who bring with them a round in the closely fought **Renault 5 Elf Turbo U.K. Cup** featuring the new Renault 5 Turbo. The entry list for the main race is so full that we are running it in two heats with the fastest eight from each heat going through to the final.

At the time of writing these notes the entry list has risen to a record 178 starters with reserve lists for two races. In all races except event 2 for Clubmans cars the drivers will have to qualify from a practice session with more drivers in it than places on the race grid, as the track is licensed by the R.A.C.M.S.A. to practice 20 cars and race the fastest 16 of these as racing conditions are tighter than practice.

The opening race of the day sees the slower 16 FF1600 cars from practice race before lunch and the leaders of the event may qualify to run in event 4 if there are places available in that race at the back of the grid.

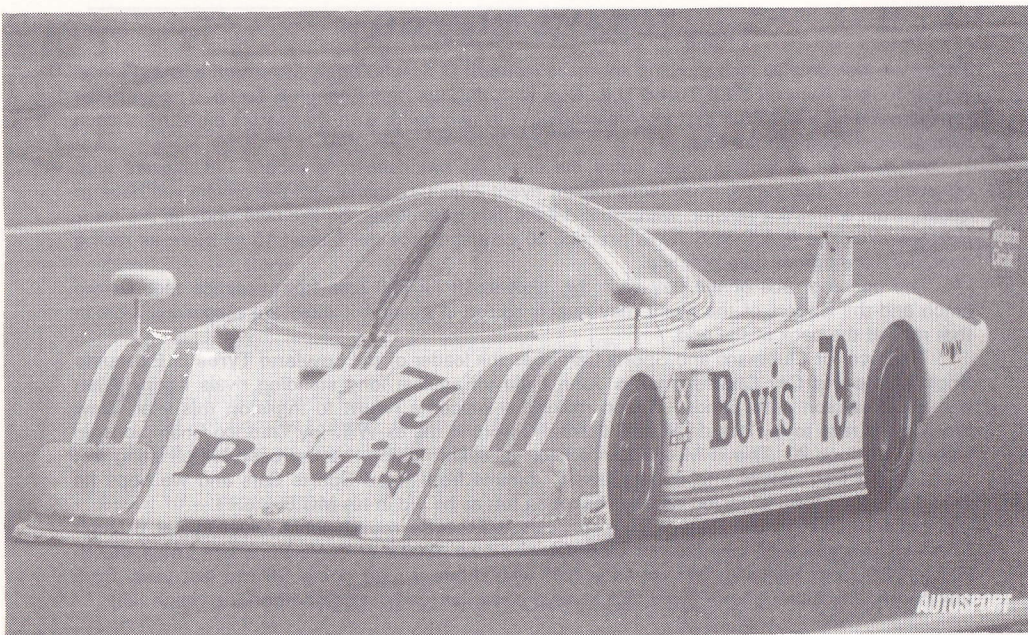

The race for Clubmans and Sports Cars sees the leader of the **Lowland Tyres & Exhausts Scottish Sports Car Championship** John Fyda up against long standing rivals Kenny Allan and Eric Peterson with Sandy Watson making a welcome return to Ingliston this year. New faces in the race today include Mike Fish from Oxford in the ex-Will Hoy Trimoco Championship winning Mallock 20. This is Mike's first season of circuit racing, having been hill climbing last year. Dr Bill Carr moves into the B Class Clubmans from Road Sports Cars and we hope he enjoys this new form of racing and has as much fun as he did in his MG B.

Local interest in the Renault 5 Turbo cars will centre round guest driver in car 5 Hugh Chalmers, usually seen winning our road car race over 1600 c.c. in his Sunbeam Lotus, Ralph Forbes (22) from Penicuik, Sid Harrison (28) who drove a road going Stiletto last year, from Edinburgh, and although not living locally now, a regular road car competitor Eric Haigh (25).

Hopefully, we will not see verge cutting like this again!

The Ecurie Ecosse C2-85 racing today.

The FF1600 Championship race, event 4, sees the battle renewed between Tom Brown, who finished in the top 8 of the Race of Champions FF race at the British Grand Prix meeting, and Cameron Binnie. Although after 4 rounds of the **Hubert Mitchell Scottish FF1600 Championship** there were 14 points between them, Cameron had only scored in 3 rounds and the drivers count 8 out of the 10 rounds in the Championship with points being scored 16 for first place down to 1 for 16th place.

The Road Car classes, event 6, for up to 1600 c.c. Saloon Cars, event 8, the **Data General Trophy Race** for road sports cars including the **Data General** sponsored car of Tom McCallum and event 11, the **Luckpenny Restaurant Race** for over 1600 c.c. saloons are still growing at a very fast rate and we see yet again more new faces joining our regular drivers to enjoy this form of racing, which is producing lots of close fought battles in the best club racing traditions.

The **Sports-Tune Race** for GT cars has an entry from Ecurie Ecosse with the C2-85 car which has had 2 class wins and a second place in the W.E.C. races this year at Hockenheim, Silverstone and Monza respectively. The car, driven by David Leslie, also set up a new class lap record at Le Mans this year before having to retire after three hours. This entry will not be racing for points in the **Scottish GT Series** which will leave Jim McGaughay and Eric Munnoch free to chase points to try to catch Ian Forrest in the championship.

The FF2000 cars will join the Libre cars in event 10 and we are pleased to see Tommy Reid from Tandragee back with us in this class. The S.B. Offshore car sees a change of driver with James Wilson driving in place of Tom Brown which leaves the **Bernard Hunter Crane Hire Scottish FF2000 Championship** open once again. The Libre field includes Ecurie Ecosse mechanic Tony Green in his Monsports March 772 and Graham Sword in the Jasag II.

The grid qualifiers from practice for this race will be all FF2000 cars, all drivers who otherwise would not have a race in any other class and then as many of the Clubmans cars as will fill the grid.

**Please note that the next race meeting at Ingliston is on 11th August and NOT 18th August.**

At each marshalling post round the circuit you will see various flags displayed. These are for the drivers' information and have the following meaning:

- (a) National flag or Red/Green lights: Start.
- (b) Blue flag — Stationary: Another competitor is following you close by.
- (c) Blue flag — Waved: Another competitor is trying to overtake you.
- (d) White flag: A service car or slow moving car is on the circuit.
- (e) Yellow flag — Stationary: Danger, no overtaking and slow down.
- (f) Yellow flag — Waved: Great danger, slow down, be prepared to stop, no overtaking.
- (g) Yellow flag with Red Stripes — Stationary: Slippery surface ahead.
- (h) Yellow flag with Red Stripes — Waved: Slippery surface imminent.
- (i) Green flag: Proceed, the hazard has been removed, or proceed on warming up lap.
- (j) Red flag: Immediately stop racing and proceed slowly and with maximum caution to pits or start line obeying marshal's instructions, and being prepared to stop should the track be blocked.
- (k) Black flag at individual marshals' posts: The race has been stopped.
- (l) Black flag with Orange disc displayed with White number: A warning of apparent mechanical failure or of a fire which might not be obvious to the driver. The car concerned **must** call at its pits on the next lap.
- (m) Black and White rectangular flag split diagonally and displayed with a White number: A warning to the driver of the car bearing the number that his behaviour is suspect and that he may be Black-flagged on further reports.
- (n) Black flag displayed with White number: The driver must stop at his pit within one lap of receiving the signal and report to the Clerk of the Course. A penalty of exclusion may be enforced by removing a car from the race by display of the Black flag.
- (o) Black and White chequered flag: End of Race or Finish.

## RENAULT

## BUILD

## A BETTER

## CAR

From July 1st to the end of August we're offering you the chance to own a brand new Renault 5 on extremely favourable terms. Your own.

Illustrated in the panel below are three repayment examples. But as we say, there's an almost infinite variety of ways to pay. Plus of course, your own car is welcome as a trade in.

The low figures we're able to offer here are courtesy of a 4.9% interest rate and a three year repayment period.

So come and test drive the all-new Renault 5 before the end of August.

Then sit down with your Renault dealer and decide your most convenient method of payment.
